March & April 2005

We want to wish everyone a
Happy St. Patrick's Day
Along with a
Happy Easter.

*This month's dance will be
March 12th at Wil-lo Hall,
Hope to see you all there.*

When couples dance, it is the woman who is showcased. Men..it is your job to make the woman look good. It may be tempting to show her we know some cool moves but if she hasn't learned to follow them yet she can't do them well.

Then she doesn't look good and she may not want to dance with you again. Men.. When you dance with a less experienced dancer or someone new it is a good idea to stick with the basics.

After you dance with her awhile and know what she can and cannot do, you can then introduce a more advanced move. If it works..GREAT! If not.....go back to the basics. Remember, the dance is all about the woman and it's our job to make them look good.
